Subject: Vendor Payment Search Page

Vendor payments are made to all contractors by the Wyoming State Auditor's Office (SAO). The SAO has an online system that allows any vendor to look for payments made – either by check (warrant) or Electronic Funds Transfer (EFT) to any vendor or contractor. The vendor name will correspond directly with the previous paperwork that you filled out that identified the vendor name, address, banking information, etc. To access this system, please go to this web site. Thousands of payments are made monthly to the numerous vendors that perform duties on behalf of the state. This includes any reimbursements for travel, expenses, contract payments, etc. The system requires specific knowledge of that vendor/entity and does not return a generic listing of all payments made.
